### A Harlan County Tragedy.

Dr. William T. Nolan, a young physician of Harlan county, shot and killed John Turner and his uncle Will Turner, on Wednesday. It seems that John Turner was attacked Dr. Nolan and was killed, and that Will Turner later hearing of the killing, made an attack upon the slayer of his nephew and met the same fate. The Turners belonged to one and Nolan to the other of the Howard-Turner factions.

The examining trials of H. C. Turner, Bruce Turner, Thomas Blair and McKee, charged with the murder of Capt. J. L. Bomar, on our last Monday, was called before Judge Apperson on Wednesday. Bruce Turner, Thos. Blair and J. A. McKee were held in bonds of \$5,000 each, to await the action of the Grand Jury, and Clay Turner was dismissed. The parties held gave bond for their appearance and were released.

Shepherdsville comes to the front as the only Kentucky city represented in the list of purchasers of the new \$50,000,000 issue of Government bonds. Two buyers take bonds amounting to \$3,000. A list of all the subscribers with the amount allotted each was sent to the Senate by Secretary Carlisle.

An anticipated Supreme Court of Kansas Thursday decided that Gov. Leawell was without authority to remove Mrs. Leawell from her position on the State Board of Charities.

Only Valentines in city at T. P. Martin & Co.'s.

If you wish to reach the stockmen of this section advertise your horse in the ADVOCATE.

James McKee has sold his residence property, on East High street, to Mr. Sam Green, for \$1900.

Don't forget the ADVOCATE reaches every stockman whose patronage you would care for. Advertise your horse in the ADVOCATE.

Mr. R. C. Robinson bought, yesterday, of Mrs. Maria Glover, through Henry Watson, Real Estate Agent, her property on Lexington avenue for \$1700 cash.

Those who fall to see Prof. Wilson and his trained dogs, and hear the Montgomery Mandolin Club, at the Opera House Friday night, will never cease to regret it.

Don't fail to read W. P. Oldham & Co.'s advertisement each week. Read it clear through, there are always some specialties. This week, he makes a special offer of lamps.

John A. Judy, of this county, a graduate of Georgetown College, is reading law with Tyler & Apperson. He is a bright young man, and we hope to see him attain to a high position in his chosen profession.

A special from Retiro, Tenn., tells of an anomaly which puzzles the medical fraternity. Eliza Worthington, a colored girl, lately gave birth to triplets, all boys. Two black as the soe of apes, while the third is white as any Caucasian babe.

Edward Bok's successful article in the January "Cosmopolitan" on "The Young Man in Business" has been reprinted in a beautiful and handy booklet form at 10 cents by The Curtis Publishing Company, of Philadelphia. To this reprint Mr. Bok has added some 14 pages of editorial matter answering "Three Uncertain Young Men."

Mr. W. W. Scott, a prosperous farmer of Judy neighborhood and Miss Alice Willoughby daughter of Mr. F. M. Willoughby of Aarons Run neighborhood, were married at Connersville Ind., on Wednesday, Jan. 31. The couple returned home on Thursday and are receiving the congratulations of friends.

Mat. Todd, a young farmer living some four miles East of Richmond, Ky., was brutally murdered on Saturday night by a negro. It seems young Todd, who was a bachelor, was sitting in his room reading, when the negro came to the window and fired upon him with a shot gun loaded with buckshot, and then went into the house and finished the work on the dying man with a knife. Our informant tells us the negro was arrested, confessed the crime, and claims he was hired by other parties to do the terrible deed.

Died, at her home, near Bethel, Saturday, January 20, 1894, Mrs. Leas Bell (nee Talbot) widow of the late R. L. Bell, in her 78th year. She was born in Bourbon county, in 1816, and was married to R. L. Bell, of Fleming county, in 1834. Four children survive her; Mrs. J. W. Patrick and Mrs. Richard Aramith, of Bethel; Mrs. W. R. Hazlrigg, of Camargo, and John Bell, of Texas. Her husband died October 19, 1893, and she was left standing on the brink waiting for the summons, when she would be called to join her loving and devoted husband. No words can fully picture the loving character of our departed friend. A woman of a sweet and lovely disposition, a loving wife, affectionate mother, and kind friend. While her last sickness was accompanied by the severest pain, she bore it brave and without a single murmur she passed away to join her friends in that land of pure delight. Her funeral was preached at her home Sunday at 1 o'clock p. m., by Rev. Howe, of Flemingburg, after which she was laid to rest by the side of her husband in Longview Cemetery.

"Dearest mother, how we miss thee, And thy love, we deeply feel, But we bear our troubles bravely, Knowing that He does all things well; For God has marked each sorrowing day, And numbered every secret tear, And Heaven's love, and His all shall pay, For all its children suffer here."

The Southern Magazine has larger news stand sales in New York than in New Orleans, larger in Boston than in Louisville, and the knowledge would seem to demand a more vigorous interest at home in this its greatest of all publications. It is known that the success of the excellent monthly has been great, even in the South, but it is the comparison that Southerners feel.

## CONVICTION.

It Must Have Been Prejudice.

### NOTHING IN THE CHARGE.

From the newspaper items and persons who have been at Clinton, Ky., we have gathered that Mr. R. A. Mitchell has been convicted on a charge of false swearing, and his punishment fixed at one year's imprisonment. For our people who have known Dick from his cradle up, who have loved and honored him with office, and who to-day have not lost confidence in him, we give the following facts: The case against Mr. Mitchell is a prosecution against him under the above charge in which John Carter was the principal actor. The facts in the case are these: Mr. Mitchell was made assignee of the Fulton Bank, which held a note against Carter of \$5,000 for collection. Mitchell brought suit against Carter, and not being ready for trial, made affidavit for a continuance. Mr. A. T. Mitchell had informed him that the note had been rediscounted to the New Farmers' Bank and that his name, as cashier of the Fulton Bank, was on the note as proof of the same. Before Mr. R. A. Mitchell swore to affidavit, he told his attorneys that he had no personal knowledge of the fact, but had no right to doubt the statement of Mr. A. T. Mitchell, and they advised him that he could swear to it according to his best knowledge and belief, and he did so; and on his trial Mr. A. T. Mitchell and also the attorneys testified to this, and the only evidence against him (Mr. Mitchell) was by a person who said he could find no record on the books of the Fulton Bank, showing that the note had been discounted to the New Farmers' Bank, and with this evidence the jury brought in the verdict.

With this statement, which we have from H. Clay McKee, we fail to see any felonious intent, and can account for the verdict only on the grounds of prejudice. A telegram from Fulton to the Louisville Times, of Saturday saying that Mr. R. A. Mitchell had testified recklessly and that the Judge had warned him to be careful, is only a sample of the stuff that is going out. Mr. McKee heard Mr. Mitchell's evidence and says there was nothing to justify any such statement, and that the Judge made no such remark. When we review the facts and connect them with other facts, that the people of that section had lost heavily by the Fulton Bank, we can come to but one conclusion; that it was prejudice that did it.

The greatest change noticed in literary matters the last year, is the tendency with which the publishers of The Southern Magazine have pushed into the field a monthly of great excellence, until now one can get this Magazine at all news stands in the United States where the Century is sold. And it is bought, too; and so will it grow in popularity to the South's great reward, so sure as its standard is maintained, which seems as sure as every issue marks a literary and artistic improvement.

It is known among publishers that The Southern Magazine has larger news stand sales in New York than in New Orleans, larger in Boston than in Louisville, and the knowledge would seem to demand a more vigorous interest at home in this its greatest of all publications. It is known that the success of the excellent monthly has been great, even in the South, but it is the comparison that Southerners feel.

To-morrow will be St. Valentine's day.

Born, to the wife of Sam Conner, on Spencer, Saturday, February 10, a boy.

Kentucky is first in tobacco, fourth in whisky, sixth in hogs, and eighth in rye and mules.

Rev. Joseph Felix has declined the call to the pastorate of the Baptist church, at Winchester.

Reports from the upper Licking, say there has been a splendid tide and a big run of timber has been, and is being brought out.

The Montgomery Mandolin and Guitar Club and Prof. Wilson, with his trained dogs, will be at the Opera House on Friday night. Go to see them.

John Keith, of near Steptone, this county, succeeded by shooting himself in the head with a pistol, on Tuesday morning last. No cause is assigned for the deed.

James Becraft, aged 19, died of consumption at the home of his cousin, Samuel Becraft, on Spencer, February 2. He was buried at Olympia on Monday of last week.

The body of Captain Bomar, who was killed on Monday last, was, on Wednesday, sent to his brother, D. G. Bomar, at Booneville, Hart county, for burial. A telegram having been received requesting that it be so sent.

Prof. "Bony" Wilson will exhibit his trained dogs at the Opera House Friday evening. He is to be assisted by the Montgomery Mandolin Club. This unique entertainment calls for a liberal patronage from our citizens.

I. M. McGuire, of Morgan county, was in the city last week. He had been in Parker's Ferry with logs and sold at that place at \$1.40. There has been a good tide in the river and a large number of logs have been put on the market.

J. M. Oliver, A. W. Chesnut and J. C. R. Duff, special Circuit Court Commissioners to set apart a homestead for S. P. Hunt, gave him 15 acres of the West end of his property on Whit street, from Wilm street to Steeps Hill.

The four weeks allowed by law for the term of our Circuit Court expired on Saturday, but Judge J. E. Cooper extended the term. The probability is, the urgent business before the Court, will occupy its attention the entire week.

Jacob Doffaven's heirs have sued and are taking steps towards the collection of \$4,000,000 due them from the U. S. Government for money loaned the government in 1800 and interest from that date. W. A. Doffaven of this city is supposed to be one of the heirs and is investigating the matter as to heirship.

George E. Owens has rented out his farm of 40 acres, on the Grassy Lick pike, for \$800; thirty-four acres to Robert Clark, of Bath county, for \$600, and six acres to William Garrison, for \$300. Mr. Owens has rented the residence property of Mrs. William Stephens, on South County street.

Mr. J. A. Withers and bride of Louisville, who have been visiting Mr. Withers' father and family in Sharpsburg, returned to their home on Thursday. Mr. Withers has many friends in this section who are glad to be among those who congratulate him in securing a splendid woman to share with him the joys and, should they come, the life of his life as well. The story of the couple in Bath was an exceedingly pleasant one.

Supt. George J. Luckey, of the Pittsburg city schools, is engaged in examining a number of Roman Catholic nuns who desire to become teachers in the Riverside public schools. There was some opposition to the employment of nuns by certain patriotic orders, but Mr. Luckey received instructions from the State Superintendent of Schools that he should examine them if they applied in their family names, and not as members belonging to any particular church or organization.

## WATER WORKS.

### Reservoir Located and Lands Bought.

Last Saturday Mr. C. C. Peters engineer for the Water Works Construction Company received a telegram from the officials of the Licking county, to close with Mr. J. D. Owsen for 15 acres of land. Mr. Peters made the deal and took an option on two acres more, which he thought would be necessary to have. This would make an available water supply, with a surface covering 17 acres at an average depth of eight feet. There were several parties here Saturday, hoping to make contracts with the Construction Company, but nothing could be done until after the purchase of grounds for reservoir, and hence, the impossibility to let contracts.

The case against Mr. R. A. (Dick) Mitchell, of this city, charged with false swearing, was heard in the Licking Circuit Court, and on Thursday the jury returned a verdict of guilty, fixing his punishment at one year in the penitentiary. This verdict was a complete surprise to his friends here. It was known that the preliminary trial that section was very strong against Mr. Mitchell, but his attorney, who had been attending the case for him, did not think there was anything of moment in it; in fact, because he had other important matters to engage his attention here, and did not think it necessary to go down with Mr. Mitchell to see him through his trial, trusting the case in the hands of a local attorney. Mr. Mitchell himself treated the matter with contempt, almost, and does not seem to have taken any precaution against a verdict of guilty.

Mr. James Gay, an intelligent and upright young farmer of the Grassy Lick neighborhood and Miss Alice Johnson, were married in Lexington, on the evening of January 31, and went to Covington to spend wedding days with friends of the bride. They are at home now at the A. W. Stoler place, where they will make their home the coming year. The bride is the lovely daughter of Mr. Joseph Johnson, of Sideview. She has been one of the most successful teachers in the county and will make the union who has secured her for a wife, a helpmeet after the order God intended the woman should be to the man.

### All Stuck.

Out of the entire panel of 24 jurors summoned to serve at the present term of the Montgomery Circuit Court not one failed to report for duty, not one asked to be excused and every man of the 24 served the entire four weeks. This is something unheard of in the history of the County. Never before has such a thing happened in the memory of any Court attaché or lawyer at the bar.

The Fayette county primary held Thursday resulted in the following receiving the Democratic nominations: For County Judge—Frank A. Bullock.

For Sheriff—Edward Gross. For County Clerk—Claude Chinn. For Judge—Van E. Wilkerson. For Surveyor—Win. A. Newman. For Assessor—R. M. Iddle. For Coroner—Dr. P. Mollor.

A brand new Democrat arrived at the home of Mr. and Mrs. R. S. Galbreath this morning. He is a jolly bounding boy and will be ready to vote the Democratic ticket twenty-one years hence.—(Clarendon) Daily World, February 3.

Ben, the boys at your old home extend to you the heartiest congratulations.

The Southern Baptist Theological Seminary of Louisville will contest the right of the city to collect taxes on its property, claiming exemption under its charter and also under the provisions of the Kentucky Constitution.

Capt. E. D. Jett, one of the most prominent business men in the South, dropped dead of heart disease in the Government building at Little Rock, Ark., Thursday.

Come to the ADVOCATE job room for fine work on your Horse Cards. This office will be supplied with cards you will not be ashamed to distribute.

### We Knew This Long Ago.

The following complimentary reference to our friend John P. Salver we take from the Louisville Post: There is something in the free air of Switzerland of Kentucky that occasionally brings out the orator and statesman even in an unlettered mountaineer. But of late years the State, has been honored with fine representatives from that section who bring these natural endowments upon a basis of higher education and greater social refinement. John P. Salver, now a member of the State Senate, is one of these. In many respects he is the intellectual superior of Moore, Martin, Taubee and others of modern note from that section. He is a bright clear lawyer and is rapidly making his way to national distinction. The western and central portions of the State, where the rich lands lie, have always been productive of the better class of lawyers, orators and statesmen but Switzerland is coming to the front and they must look to their rivals now.

Next Monday will be County Court Day, and we will be glad to have our friends honor us with a call. Many came in last Court and we will be glad to see all again next Monday. By the way, we have a "World's Almanac and Encyclopedia" for every subscriber who pays up all arrears and a year in advance.

# THE ADVOCATE.

## THE UNSELECTED INFANT.

An unselected infant smiled at its little life.  
 It lay in its mother's arms, along the  
 shores of death,  
 Until the golden heaven again with peace it  
 smiled.  
 And ran to them, and sang, and would not be  
 denied.  
 Then, when from earth rose mountains, "You  
 can not enter in,  
 Depart into wilderness, you child of wrath and  
 sin."  
 At last the gates were opened. A man with  
 features and  
 Stopped down and reached the weeping, unselected  
 child,  
 Immortal life thrilled down the streets of  
 bliss,  
 And the infant's forehead the spirit placed a  
 kiss.  
 "Dear child, my name was Calvin, but I see  
 things different now."

## AGRICULTURAL NOTES.

Slight frosts make the oranges  
 sweeter.  
 It pays to consider mutton first and  
 wool afterwards.  
 Wheat is an excellent concentrated  
 food for all live stock.  
 The cross of Dorset rams upon grade  
 Merino ewes is an excellent one.  
 The average farmer does too much  
 manual and too little brain work.  
 The successful dairyman must have  
 dairy cows, and give her daily care.  
 A boar should be tractable, but pos-  
 sessed of abundant life and activity.  
 Among pears the Seckle is the most  
 liable to the injured by over bearing.  
 The Devons were probably among the  
 earliest breeds raised in England.  
 This is the time to crowd the thrifty  
 pigs weighing 150 pounds for market.  
 House plants should be put in small  
 pots, for flowers, and in large ones for  
 foliage.  
 The national meat inspection laws  
 have been a failure, and ought to be  
 repealed.  
 The tendency nowadays is to in-  
 creasing the production of the farm  
 rather than its acreage.  
 The more grain calves, colts, lambs  
 and pigs are able to eat for a month  
 before weaning the better.  
 The wheat in India for 1894 is 6 per  
 cent, greater than in 1893. The indica-  
 tions are favorable for a good crop.  
 One million acres of oats were sown  
 in Scotland last year, and 280,000 acres  
 devoted to the production of other  
 cereals.  
 After a hog has passed 250 pound-  
 it is very doubtful if the average feed-  
 er can put another ounce on him with  
 any profit.  
 Since the middle of September 25,  
 000 bearing apple trees, 3,000,000  
 grape vines, 700,000 plum trees, and  
 500,000 each of cherry, pear and peach  
 trees.  
 Over ninety-three million pounds of  
 hickory root were imported into this  
 country during the year. Why can  
 not we raise it for our own market at  
 least?  
 Do not let the cows run down  
 which are to calve in the spring. It is  
 mistaken economy to permit them to  
 run down because they are not giving  
 any milk.  
 Two grass-fed bullocks, recently ex-  
 hibited at a cattle show in New South  
 Wales, Australia, weighed respectively  
 2,284 and 2,178 pounds. They  
 were fattened wholly on natural pas-  
 ture.

## Electric Bitters.

This remedy is becoming so well  
 known as to need no special mention.  
 All who have used Electric Bitter  
 sing the same song of praise.—A pure  
 medicine does not exist, and is guar-  
 anteed to do all that is claimed.  
 Electric Bitters will cure all diseases  
 of the liver and kidneys, will remove  
 pimples, boils, salt rheum and other  
 affections caused by impure blood.—  
 Will drive malaria from the system  
 and prevent as well as cure all malarial  
 fevers.—For cure of headache, consti-  
 pation and indigestion try Electric  
 Bitters—entire satisfaction guaranteed  
 or money refunded. Price 50 cents  
 and \$1.00 per bottle at W. S. Lloyd's  
 drugstore.

## Endurance of the Horse.

The endurance of the horse has been  
 recently subjected to a series of ex-  
 periments in France, from which it  
 would appear that a horse will live on  
 water alone for twenty-five days.  
 And without food, without eating or  
 drinking, only five days if fed but  
 unwatered, ten days if fed and in-  
 sufficiently watered. A horse kept  
 without water for three days drank  
 104 pounds in three minutes.  
 It was found, too, that a horse  
 taken immediately from "feed" and  
 kept in the active exercise of his  
 "quadron school" completely digests  
 his food in three hours; in the same  
 time in the "conscrip's school" it  
 took was two thirds digested, and it  
 kept perfectly quiet in the stable in-  
 digestion was scarcely commenced in  
 three hours.

## Missing Word Contest.

Supply the missing word in the fol-  
 lowing sentence:  
 "In society the all absorbing topic  
 in England during the quarter was  
 the Prince of Wales and the  
 affair."  
 One-fourth of the net subscription  
 receipts of those entering the contest  
 will be divided among those who sup-  
 ply the correct word in the blank in  
 the above sentence. Thus, if there  
 are \$5,000, one-fourth would be \$1,250.  
 If ten supply the correct word each  
 would receive \$125, if 100, each \$12.50  
 etc.  
 Both of the above contests free and  
 in addition to Two Papers for about  
 the price  
 The Weekly Constitution has a cir-  
 culation of 150,000, and is the people's  
 paper. It favors Tariff Reform, an  
 individual income tax, and the Ex-  
 pansion of the Currency to a degree  
 sufficient to meet the legitimate busi-  
 ness demands of the country.  
 It covers the news of the world  
 every week, having news correspond-  
 ents in all the news centres of the  
 world.  
 Take your home paper, The Advoca-  
 te, and The Constitution. Two for  
 only \$1.25, both new subscribers. Re-  
 newals to The Advocate and The  
 Constitution for \$1.50.

## HORSE NOTES.

An occasional oiling will prevent  
 cracks and breaks in the harness.  
 The day of bay-wintered colts stand-  
 ing in the barnyard has gone by.  
 Take the chill from the mare given to  
 the brood mares in cold weather.  
 The proper development of the colts  
 is a business which few understand.  
 In the half-bred hackney the breeder  
 has a grand type of general-utility  
 horse.  
 One good horse means profit and  
 pleasure; a dozen ordinary ones mean  
 loss and disappointment.  
 Good looks go a long way towards  
 a desirable price, and the greatest  
 source of good looks is care.  
 The care and keep of the colts from  
 infancy to selling age affect their value  
 more than most breeders realize.  
 There is a large surplus of horses in  
 the country, but they are of the kind  
 horse-buyers do not want to invest in.  
 A perfect horse cannot be bred from  
 an imperfect one, or a high-class one  
 from a mare or sire possessed of  
 prominent faults and imperfections.  
 A breeder who wishes to succeed  
 should breed only the best to the best,  
 and take care of both pedigree and in-  
 dividuality as he proceeds.  
 Don't expect to have good strong  
 yearlings and two-year-olds when  
 spring comes unless you feed plenty  
 of clean, wholesome food during the  
 winter.  
 The man who breeds horses intelli-  
 gently, breaks them carefully, teaches  
 them thoroughly and develops their  
 speed will always find a profit in his  
 business.  
 There is a demand for thorough-  
 bred stallions for Canada. The stall-  
 ions are required to have plenty of  
 substance and weight to cross with  
 Canadian mares.

## Mrs. Peter Cooper's Furniture.

It is said that when Mrs. Peter  
 Cooper, (the wife of the founder of  
 Cooper Institute in New York) first  
 went to housekeeping every piece of  
 her furniture was made by her hus-  
 band with his own hands. Even the  
 bedroom and parlor "sets" were the  
 handiwork of her ingenious husband.

 tion on the infallibility of the Pope; in  
 twelve essays.  
 Address Rev. Thomas C. Moore, D.  
 D., Holy Cross, Kan. 23-1

There was a backward student at  
 Balliol who, for failure to pass an  
 examination in Greek, was "sent  
 down." His mother went to see the  
 master, Dr. Jowett, and explained to  
 him what an excellent lad her son was.  
 "It is a hard experience for  
 him, this disgrace," said the old lady,  
 "but he will have the consolation of  
 religion, and there is always one book  
 of future can turn." Jowett eyed  
 her a moment and then answered,  
 "Yes, madam—the Greek grammar.  
 Good morning." —San Francisco Argonaut.

Famous correspondences between  
 Goethe and Charlotte von Stein, from  
 1776 to 1826, numbering 1,348 letters,  
 are bound up in seven folio  
 volumes, was recently offered for  
 sale in Berlin at the price of 200,000  
 marks.

 more than two-thirds of the grown  
 male population of the globe use to-  
 bacco in some one of the many forms  
 in which it is taken.

The Spaniards individually eat  
 every year 500 pounds of bread, as  
 much as the Irish, 12 of sugar and  
 wash down this supply with 14 gal-  
 ons of wine.

## That Sinking Feeling.

A Detroit doctor is laying for a boy  
 about eighteen years old, who came to  
 his office one day last week, and after  
 getting his advice, disappeared and  
 has not since been seen, at least by  
 him.  
 "Doctor," said the boy, "I have a  
 sinking feeling all over, a great many  
 times a day."  
 "Ever at night?" asked the doctor.  
 "Hardly ever."  
 "Let me see your tongue."  
 The boy showed him his tongue;  
 the doctor felt his pulse, sounded his  
 chest, worked a stethoscope on him,  
 listened to his heart-beats, and then  
 told him what was the matter with  
 him, and what to take for it.  
 "Maybe my business has got some-  
 thing to do with it, doctor," suggested  
 the boy, as the physician stepped into  
 the adjoining room to get a phial.  
 "Hardly that, I think," cheerily  
 sang out the physician from the other  
 room.  
 "What is your business?"  
 "I run an elevator," responded the  
 lad, and before the doctor could get to  
 him he had disappeared, as above stat-  
 ed.—Detroit Free Press.

## Nonmagnetized Watches.

It is very seldom that a watch will  
 be affected when worn in an electric  
 car, because the electrical current  
 does not come in close proximity to  
 the wearer, or both might feel its ef-  
 fects. Nonmagnetized watches only  
 could be affected. These watches,  
 which are largely in the majority,  
 are supplied with works of fine steel,  
 and an electric current, when brought  
 to bear on it, finds the center of at-  
 traction in the roller and lever or  
 pole of the watch. The roller is the  
 small steel disk which fits directly  
 under the balance wheel. On that  
 disk are two tiny posts which fit in  
 the ends of the pole of the watch.  
 The pole is the flat piece of steel  
 which moves backward and forward  
 with the reversible motion of the  
 balance wheel. The pole attracts the  
 electric current. A magnet or load-  
 stone held over it will give a good  
 illustration. Watches are manufac-  
 tured which are proof against such  
 currents. They are magnetized.  
 That is done by substituting a com-  
 position pole and roller.—Brooklyn  
 Eagle.

## Asking Too Much.

Willie is not at all sure that his lit-  
 tle sister is as good as he is, but he  
 sure he wants to see her improved.  
 "Willie, did you ask the Lord to  
 make me a good little boy?" asked  
 his mother one night after he had  
 said his prayers.  
 "No, mamma," he answered frank-  
 ly.  
 "Why didn't you?" she inquired in  
 pained surprise.  
 "Oh," he said, with a toss of his  
 head, "I didn't think it was much  
 to ask. I asked him to make a good  
 little girl of sister, and I knew that  
 would keep him busy."—Godey's  
 Magazine.

## The Pink of Pearls.

Dr. Hodge of Meriden received a  
 letter from R. W. Sawyer of Nassau  
 New Providence, one of the Bahama  
 islands, telling of the finding of a  
 pink pearl in a conch shell there that  
 is the finest ever brought to light.  
 This pearl is nearly as large as a pig-  
 eon's egg and of the same shape, hav-  
 ing no flaw or blemish, and of perfect  
 color and marking. It was sold to  
 the local agent of a Paris house for  
 \$405, or over \$2,000, the largest price,  
 it is believed, received for a pearl at  
 the Nassau conch fisheries.—Hart-  
 ford Post.

## His Constellation.

There was a backward student at  
 Balliol who, for failure to pass an  
 examination in Greek, was "sent  
 down." His mother went to see the  
 master, Dr. Jowett, and explained to  
 him what an excellent lad her son was.  
 "It is a hard experience for  
 him, this disgrace," said the old lady,  
 "but he will have the consolation of  
 religion, and there is always one book  
 of future can turn." Jowett eyed  
 her a moment and then answered,

## The Forum

"The Greatest of all our Periodicals."

The foremost men of the world write the literature  
 of contemporaneous activity for THE FORUM.

Every great subject is taken up by The Forum when it naturally comes into  
 public attention and is treated by the best authorities, without regard to parties  
 or creeds. It will keep any thoughtful reader informed as to the issues and problems  
 of the time, no so other periodical does.

To many thoughtful people, the price of The Forum has hitherto been prob-  
 lematically; indeed all the great Reviews have been too high in price for the mass  
 of intelligent readers. But now the number of readers of thoughtful literature  
 —men and women who wish really to know what is going on in the world out-  
 side the narrow limits of particular sects and parties—is so great enough in the  
 United States to warrant so revolutionary a reduction in price. The Forum  
 discusses important subjects, but it is not dull. The literature of contem-  
 poraneous activity is, in fact, the most interesting of all literature. American  
 citizenship implies that a man shall know the opinions of the foremost men  
 and the latest great achievements in every direction of activity.

SIZE AND QUALITY UNCHANGED.

The Forum is now as cheap as the magazines of mere entertainment.  
 THE CHEAPEST, THE LARGEST, THE BEST, OF THE GREAT REVIEWS.

## How to Buy a Horse.

No sensible man will buy a horse of  
 any value or one which he expects to  
 do good service without first  
 submitting it to a qualified veterinary  
 surgeon, says the London Live-Stock  
 Journal. Many an unprofessional  
 man has a good eye for a horse, but  
 he knows little or nothing of its struc-  
 ture and anatomy, compared with the  
 trained veterinarian. Moreover, the  
 astute judge of a horse is apt to fly to  
 certain points where he thinks he  
 may detect something, and overlook  
 others. The veterinary surgeon, who  
 is examining horses almost every day,  
 not only brings his scientific knowledge  
 to bear but conducts his examination  
 in a systematic manner, going all over  
 the horse before he has done with him.  
 If there be manifest unsoundness, it  
 will be discovered and pointed out,  
 but it is in the discovery and indica-  
 tion of incipient unsoundness that the  
 training and practice of the veterina-  
 rian are of supreme value.

## Barns For Rent.

I desire to rent on liberal terms for  
 the season of 1894, the barns at Fair  
 Grounds track, with track privileges.  
 These barns are well built, with hy-  
 draulic or electric. The track is first-  
 class and never gets hard, making it  
 one of the best ones in the country for  
 training purposes. Or, will sell 160  
 acres of land including track and  
 barns.  
 GEO. W. ANDERSON,  
 Mt. Sterling, Ky.

Michigan produces one-fifth of the  
 iron of this country, valuing 9,000,000  
 tons a year. The copper mines are  
 the richest in the world, having pro-  
 duced over \$200,000,000 worth of metal.

## In Cold Weather.

First—Don't let your horse stand  
 very long out in the cold while you  
 are inside warming yourself.  
 Second—Don't let him stand at all  
 without putting a blanket over him.  
 Third—Don't hitch him to an iron  
 post or railing when the mercury is  
 below freezing. He needs the skin on  
 his tongue.  
 Fourth—Don't keep the stable very  
 dark, for when he goes into the light  
 his eyes are injured, especially if snow  
 on the ground.  
 Fifth—Don't make your horse  
 drink ice-cold water nor put a frosty  
 bit in his mouth. Warm the bit by  
 holding it half a minute against his  
 body.  
 Sixth—Don't fail to keep your horse  
 well shod. It is cheaper than to pay  
 veterinary bills.  
 Seventh—Don't forget to see if the  
 barn is put in a comfortable  
 condition for the winter.  
 Eighth—Don't run your horse down  
 a hill, especially when snow and ice  
 are on the ground. He is liable to  
 fall and break your neck.  
 Ninth—Don't fail to see that the  
 harness will cause sores.  
 Tenth—Don't fail to keep plenty of  
 good clean straw in the stall at night.  
 Eleventh—Don't fail to give your  
 horse a good rubbing down each eve-  
 ning, especially if he is heated, and then  
 blanket him.—The Humane  
 World.

The signs of the times point, in the  
 opinion the Electric Review, to re-  
 newed activity in electrical circles.  
 Improvement and extension of elec-  
 tric lighting plants and installation of  
 new electric railway are leading fea-  
 tures in this movement.

Zoologists claim that the strength of the lion in the fore limbs is only sixty-nine per cent, of that of the tiger and the strength of the hind limbs sixty-five per cent.

The Carrolton Woolen Mills have been sold by H. M. Winsor, trustee, to the representative of the bondholders for \$17,000. This is a very low price, as the plant originally cost over \$50,000.

It is reported that the China Herald is having constructed, in Baltimore, two aluminum vessels to be sent in search of the North Pole. The expedition will start from Russia sometime after March.

The large Birmingham, Ala., Bulletin, owned in Louisville, were in resumption yesterday, giving employment to about 1,000 men. They have been closed since last July.

As to where man first appeared it is beyond doubt that his earliest home was in Southern Europe, or Asia, or North Africa. No earlier traces of him have been found than those found in the area that is now England, France and Spain.

The report that John D. Rockefeller had secured control of the vast iron mining interests of the Lake Superior region was confirmed Tuesday by the election of officers of the various companies known to represent the Rockefeller interests.

Ayer's Hair Vigor keeps the scalp free from dandruff, prevents the hair from becoming dry and harsh, and makes it flexible and glossy. All the elements that nature requires, to make the hair abundant and beautiful, are supplied by this admirable preparation.

With pure, vigorous blood coursing through the veins and animating every fibre of the body, cold weather is not only endurable, but pleasant and agreeable. No other blood medicine is so certain in its results as Ayer's Sarsaparilla. What it does for others it will do for you.

The senate committee on Revenue and Taxation of the Kentucky General Assembly Tuesday decided to report favorably a substitute for the House bill abolishing the State Board of Equalization. According to the substitute the board is to meet only once in five years, is to have no jurisdiction over personal property, and jurisdiction over real estate is to be limited to the State tax, which is now forty-two and one-half cents.

Dr. William C. Braslin shows that in negroes the nasal canals are wider, shorter and less deep, than in other races, and thereby less protection is afforded the lungs. The author believes that the African nose, being adapted to a tropical climate, is not suited for the colder climates, and that in this lies the greater susceptibility of the negro to consumption and other diseases depending upon irritating qualities in the atmosphere.

It has been decided by the Democratic members of the Senate Finance Committee not to waste time by tariff hearings, and Chairman Voorhees Tuesday gave out a statement explaining the committee's determination. He says very forcefully that the people are heard through their representatives in Congress, and a moment's consideration will show how ample and sufficient such hearings have been and will always continue to be.

Scientists affirm that red hair means an abundance of iron in the blood. And the analyst says that it is the matter that enters the red hair that imparts vigor, the elasticity, the great vitality, the overflowing, thoroughly healthy animal life which runs through the veins of the red-haired, and this strong, contented animal life is what renders them more interesting in their emotions than their more languid fellow creatures. Philosophers notice it as a peculiar fact that red-haired old maids are very rare.

To pick out other aerial distances it may not be generally known that a frigate bird can travel at the rate of one hundred miles an hour by chronograph, and live in the air a week at a time, day and night, without touching a roost; that large and heavy birds can remain almost motionless in air for hours without flapping their wings; that birds can exert continuously about three times the normal power a pound of weight that man can, and about the same amount more than a horse can.

"Every Republican paper in the country, from one of the great dailies to the little 'last sheet' on the cross roads, have been howling out the awful deluge of disasters that are to come upon the country as the result of the repeal of the Federal Election law; and now every one of them are gleefully quoting Senator Palmer's prophecy, that one of the first results of the repeal of the relic of Reconstruction days will be the early disintegration of the solid South. The Senator is quoted as saying 'in six months there will be no such thing as a solid South.' So long as there is a negro question to settle and so long as there are a set of malignant meddlers in the North, who want to solve that question for us, in their own way, there will be a solid South. But the babe, yet unborn, will be gray headed and palsied with age, and still the solid South will present the same unbroken stone-wall-face which way she may. The prophet who can look far enough into the future to see the solution of this negro question—the most momentous any free people were ever called upon to work out—can probably see the beginning of the end of the solid South.

Secretary Carlson estimates that an appropriation of \$2,367,855 will be required to carry the departments through this fiscal year.

Decatur Record: While the bill was altogether unsatisfactory to the republicans, and not altogether satisfactory to many democrats, it was doubtless the best that could be done under the circumstances. It is gratifying that while a number of democrats voted against the income tax amendment, most of them voted for the bill on its final passage.

Rev. Phoebe Hannaford, one of the chorists of New York, stoutly declares that man should be the dishwasher of the family. And there is nothing slow about Phoebe when it comes to argumentation. She quotes the Scriptures to prove her position, turning to; And they spread a line over Samaria and wiped out Jerusalem as a man wipes a dish, turning it upside down," — Cincinnati Post.

He thought that there will soon be a new printing office bill, passed. It will not come before it is filed, for the printing office as it is now is a regular death trap, and there will be something done soon. There will be a worse disaster than the old Ford's Theater. The Government is amply able to provide buildings for its employees, and there is no reason why it should not. But the law factory of our country is the slowest hinery we have. I suppose all work turned out, though, is ill-made and warranted not to be is the reason they are so slow. President is also slow. His staff must be hand-carved. He has been in office now on to a year, some of the best offices at his disposal are held by the race, and the buggers out in the cold, and let them hustle for themselves. Then they will know it is hard times are. There are a good worthy Democrats at their mouths open waiting for loaves and fishes. Why turn them out from their own home? ## Gen. Gordon's Lecture.

Gen. John B. Gordon will deliver his famous lecture "The Last Days of the Confederacy" at Lexington on Thursday night. In commenting on this lecture a leading paper says "That lecture is a sensation. It is an patriotic speech, but comes from a great loving, loyal heart, a heart which knows how to accept the result with grace and how to renew its loyalty in the flag of the Union with increased devotion." Any of our people who desire to go to hear the great lecture should let Mr. Claude Paxton know of the fact and if a number will indicate that they desire to attend, we know our accommodating railroad Agent will see that they get rates. Let your intentions be known at once and Claude Paxton will see that you are provided for.

## Tortured By Robbers.

On Leatherwood Creek, Cumberland county, Ky., Thursday night, robbers were guilty of a most horrible brutality. Three men entered the home of James Clayton, who does not believe in banks, and, after gashing the family, proceeded to compel him to tell where his money was hidden. They fired pistols close to his head, choked him, burned him with hot stones and finally stuck his feet in the fire, holding them there until they curled in a clasp. This finally convinced Clayton, who told where the money was. The robbers got \$1,800 and then escaped on three of Clayton's horses. Clayton will probably die.

## New Toll Law.

Under the new road law enacted by the last Legislature the rates on all turnpike and gravel roads were fixed as follows: The rates on all loose stone and vehicles drawn by one horse remain the same, but the rate for a wagon drawn by two horses is fixed at 20 cents each way if loaded and 10 cents when not loaded. Pleasure carriages with two horses 25 cents each way; when drawn by four horses 30 cents. Three horse wagon 30 cents four horse wagon 40 cents five horse wagon 60 cents. The rates are reduced for neighborhood travel below those rates. Turnpike companies should take notice of these changes and the rate card conform to them or they may incur the penalty of the law. The fine for each offense is \$10 for the gatekeeper and \$50 for the company.

## No Pay, No Preach.

"The Prowler" writes this story for the Winchester Democrat. He has been preaching in the southwestern part of the State for several days, and learned of a peculiar custom that obtains in regard to "paying the preacher" that it would possibly be well to adopt in other communities, where, as it is well known, much difficulty is occasionally experienced in raising the necessary funds to pay the humble servants who labor so faithfully in the Lord's vineyard. It is an unwritten law among the preachers of that section that the full amount of money agreed upon be handed them before the hour of service each Sunday that they preach, and unless the sum is forthcoming no service will be held. Hence, there is no misgiving of appointments by the preacher on account of being sick, the usual stereotyped excuse when people are remiss in paying their subscriptions, and the people are also aware that if there is no money there will also be no preaching. There is one preacher in the district who is so firm in his demand that the people of his church have added "C. O. D." after his title of D. D., and by this euphonious name he is known throughout that section of the State.

Mrs. Olivia, wife of A. W. Plank, died at her home in this county Wednesday, the 7th inst, from child-bed fever, aged 26 years. She had been a member of the Baptist church for 12 months. Her funeral was preached by Dr. Fisher, of Louisville, and her remains were buried in Macphelah cemetery. She leaves a husband, a three-week-old girl baby, together with father, mother, brothers and sisters, to mourn her loss and praise God for her goodness on the earth.

Her christian life was beautiful and her death triumphant. She knew she must die, and, like many good christians, preferred being with God to this life of troubles. Her last moments were given to dying admonitions. She wanted to meet her dear ones in Heaven, and to them she gave a parting word: "Take care of my little babe, mother, and bring it when you come. Everything about me is so bright. I am going and would not return for the world. Of course I will meet my brother, A. L. Hackett, and you, General Williams, good-bye! I want to meet you in Heaven." With these words she passed into the bright beyond.

Lud Witt, of this place, gave his brother-in-law, Strother Anderson, on the night of the 6th inst., a dancing party. Anderson started the next day to Hudson, Ill., with Joseph Barrett and family.

The following is a partial list of the property sold by L. B. Hoffman, auctioneer, at Joseph Garrett's sale: One bleated mare, \$49.75; one yearling heifer, \$10; one cow, \$15.50; seven scrub asses, average \$5 per head; one second-hand wagon, \$31.35; one mow, \$10. Farming implements sold low. Household and kitchen furniture of a desirable nature brought fair prices.

There were three unknown tramps passed through this place a few days ago on their way, as they said, to Beattyville. They stopped and begged something to eat at every house they passed. When four miles above this place one of them called at Ben Young's house, and finding his wife all alone, he made improper proposals to her. She ordered him off the place but he kept advancing, when she grabbed a pistol and threatened to shoot him, which scared him away. It was but a few minutes after he left until Mr. Young came, and she told him how she had been treated. Young immediately gathered up a party of his friends and started in pursuit. They overtook the tramps at the mouth of Black Creek. Young took his gun and knocked the one down that had insulted his wife and beat him unmercifully. One of the other tramps drew a pistol to defend his partner, but Young's friends stood him off. The other two tramps took their partner over to Clay City where doctors sewed up his wounds on the head, made up some money, put him on the train and sent him on his way a wiser, if not a better, man.

The Judgement on Hood's Pronounced by Squire Fogg.

Mr. T. M. Fogg

The following testimonial comes from T. M. Fogg, Esq., who is well-known throughout Kentucky as a court justice and justice of the peace for Bath county. His words should invoke the confidence of all who read his letter:

"I will say for Hood's Sarsaparilla I believe it to be the best medicine in the world. In the winter of '92 I had a bad case of the grip which left my system in very bad shape. Tried everything I could find and got no relief. In the fall of the same year I bought a bottle of Hood's Sarsaparilla. The first dose I took

Made a Decided Change for the better. When I began taking the first bottle my weight was 127 pounds, the lightest since manhood. By the time the second bottle

was used my weight was 138 pounds.

## Sugar for Horses.

Most horses are like children, exceedingly fond of sugar, and indulging them in it will soon familiarize them with the gilder, and the petting will teach them to obey his will readily. The sugar's fattening, and will give them shining coats, and also free the stomach from any worms. A few lumps of sugar from the hand of the master will thus benefit the animal in every way.

Arion, 2:07½, will be entered in the free-for-all classes next season if he trains well.

Baroulet, bay horse by Baron Wilkes, brought \$1,300 in the Chicago sale last week. He was sold to W. A. Fanning, of Chicago.

Nelson, 2:40, and Allerton, 2:49½, are the only two trotters in the 2:10 list that were given their records by the men who bred them.

It is said the first horse was brought to this continent in 1518. There are now in the United States alone 14,056,750 horses, valued at \$911,000,000.

At Peter C. Kellogg & Co's sale in New York, Wednesday, Hazel Wilkes 2:11½, sold for \$5,500, Una Wilkes 2:15, \$3,400, Jean Wilkes, \$1,600, Sabina 2:14½, and Nellie Aldine \$3,500.

William Penn, 2:12½, will in all probability be in the stable of the veteran John E. Turner, who is the owner of Santa Claus, 2:17½, the sire of this speedy youngster.

R. P. Pepper & Son shipped last week sixty-four head of trotters, the lot of Onward, Norval and Madrid, to Chicago, and they were sold in the Berry & Co. sale on Thursday. The lot sold for \$20,475, an average of \$319.19.

Mr. L. H. Hudson, of Danville, has sold a New York gentleman a handsome combined New York saddle and fancy cart horse for \$1,000. He is said to be one of the finest horses of the kind that ever left Boyle county.

The present condition of the trotting horse market is such that a trotter that can go out and demonstrate that he is a trotter is more valuable than if he had a record, for his earning capacity is so much the greater, while the value of a trotter that cannot trot a very chimerical.

Every owner should find out just how much expense he can stand before he exports returns, and figure accordingly, and keep all the older horses that can win their oats out to the races, and train all the youngsters to find out as quickly as possible whether they are worth keeping or not.—American Sportsman.

Woodward & Shanklin's sale of horses last week at Lexington, was well attended, but ruled low. Jay Hawker, 2:14½, brought \$8,000; Onelda, 2:17, \$2,400; Macey, by Geo. Wilkes, \$4,000. The average the first day on 56 head, was \$454.71 head the second day, averaged \$240.

Ed Geers will strike the circuit this season with a magnificent string of flyers. The stars which will carry Hamlin's colors to victory or defeat next summer are already getting their preliminary work at the covered track at Buffalo, and long before the bell rings they will be ready to receive the hail.

Hal Pointer is again to be a member of the string, and the peerless Fantasy, 2:08½, will also score for the word. In the opinion of Geers, the stable will be the strongest he has ever had and will be made up as follows: Hal Pointer, 2:04½; Robert J. 2:05½; Fantasy, 2:08½; Nightingale 2:10½; Moonstone, 2:12½; Globe 2:14½; Merry Chimes, 2:14½; Mocking Bird, 2:16½; Pansy, 2:17½; Ed Easton, 2:18½; Hei-at-Law, 2:20½; Americus, two-year-old trial 2:15½, now four years old; Vice Regent (3), brother to Prince Regent, 2:16½; Lord of the Manor (2) by Mambrino King; Gals Chimes (2) by Chimes; Red Hal, 2:13½; Ohio Hal, a fast son of Brown Hal, 2:12½, and one or two others. This is a string of flyers that ought to put in many fast miles.

**LAND, STOCK AND CROP.**  
M. Hadden bought of Jas. Dunnaway, ten shoats at \$4.75.  
G. L. Kirkpatrick bought of Gray & Halley, of Grassy Lick, 11,000 lbs of tobacco at 84 cents.

J. W. Mason, of Grassy Lick, sold a four-year-old mare to a Pennsylvania gentleman for \$325.

# What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.**  
"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
Dr. G. C. Osceola, Lowell, Mass.  
"Castoria is the best remedy for children of which I am acquainted. I hope this day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various patent nostrums which are destroying their loved ones by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. Kneeland, Oswego, N.Y.  
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
R. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.  
"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confirm that the merits of Castoria has won us to look with favor upon it."

which dropped a lamb on Wednesday night, January 24th. As the weather was extremely cold, it died. Monday night following the same ewe produced two more lambs, which are living. The owner of the ewe is authority for the story.

Wm. Clay, of Cordyon, says: "I raised about fifty bushels of clover seed on about eighteen acres of land and an offer of \$5.75 per bushel for it. I realized \$10 per acre for the first crop of hay on the land. The land has been benefited in the meanwhile, instead of injured. Tobacco is not 'in it' by comparison."—Danville Advocate.

Miss Lena Young, the daughter of Jacob Young, of this county, recently sold 1,400 pounds of Pryor tobacco which brought \$80.40, the highest that has been realized in the Owensboro market this year. She has also 2,000 pounds of burley, not yet delivered in the market, which she raised herself. She has been running her father's farm for six years, and is making a success of it.—Owensboro Messenger.

**Louisville Tobacco Market.**  
Sales on our market for the week just closed, amount to 4447 hids, with receipts for the same period 3651 hids. Sales on our market since January 1st, amount to 25,115 hids. Sales of crop of 1893 on our market to this date amount to 30,775 hids. The sales were large again this week; much the greatest part of the offerings being new burley, for which prices were well sustained. The market closed firm and active with a tendency toward higher values, with the exception of some weakness the last few days on very common grades.

The following quotations fairly represent our market for burley tobacco. (1893 crop.)  
Trash. (Dark damaged tobacco) \$2.50 to \$3.50.  
Common color trash, \$3.50 to \$4.00.  
Medium to good color trash, \$4.50 to \$7.50.  
Common lugs, not color, \$4.00 to \$5.00.  
Common color lugs, \$6.00 to \$7.50.  
Medium to good color lugs, \$7.00 to \$9.00.  
Common to medium leaf \$8.00 to \$11.00.  
Medium to good leaf, \$11.00 to \$15.00.  
Good to fine leaf, \$15 to \$18.  
Select wrappery styles, \$18 to \$21.50
